Dashboard feedback:

- Remember to make sure we aren't getting lost in the numbers and maintain our story
- [After talking about our story/dashboard flow] -> story is logical and seems to flow well
- Trying to make the line charts visually distinct
- Need to figure out color pallet.

We've taken the feedback into account and added a rough draft color pallet of red, grey, black, blue, and white. We also intend to give extra emphasis to story flow while creating the dashboard. A box for color pallet has been added to the napkin drawing below.

Dashboard - Plotly Dash - Multi-
